ABOUT ME

I am currently working full time as a Health and Wellbeing Navigator and looking for the opportunity to explore a different career path where I can add my own creativity and have a better life/work balance. In October 2025, I decided to use my spare time to embark on an online coding bootcamp course with SheCodes.io with the view of becoming a digital content/web developer. My motto is simple: **Trust the process!!!**

INTERESTS

I was born in Denmark and spend my early childhood there. I subsequently moved to Italy and also lived and worked abroad. I am fluent in Italian and have a good level of spoken Danish. I enjoy DIY projects, crafts, gardening, cooking and relaxing with friends and family.
